# Pigment Yellow 151 - DCC 7351

## Product Overview

**Chemical Class - Benzimidazolone, CAS 68137-42-0**

DCC 7351 is the highest performance opaque PY.151 on the market. This product is recommended for use in high-end industrial and agricultural coatings. This green shade yellow pigment offers significantly improved gloss retention and weatherfastness compared to all other grades of PY.151. DCC 7351 also has excellent flocculation resistance in a wide range of systems; saving formulation time and money spent on expensive additives. DCC 7351 falls between conventional PY.151 and PY.154 in shade and should be used where a high performance green shade yellow is required.

### This product is supported by

- DCC's global distribution network
- DCC's technical service and support
- DCC's commitment to quality products

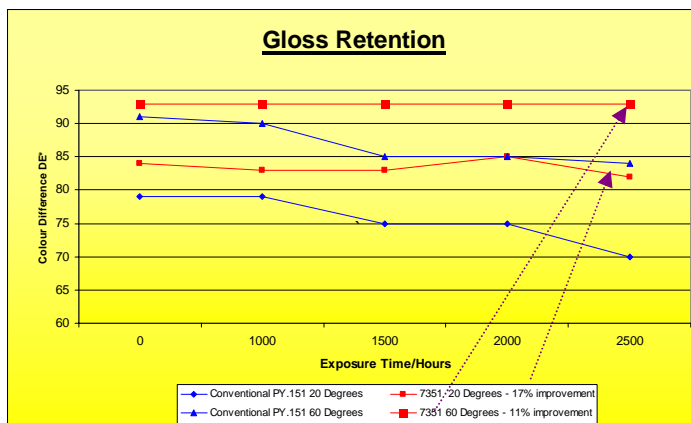

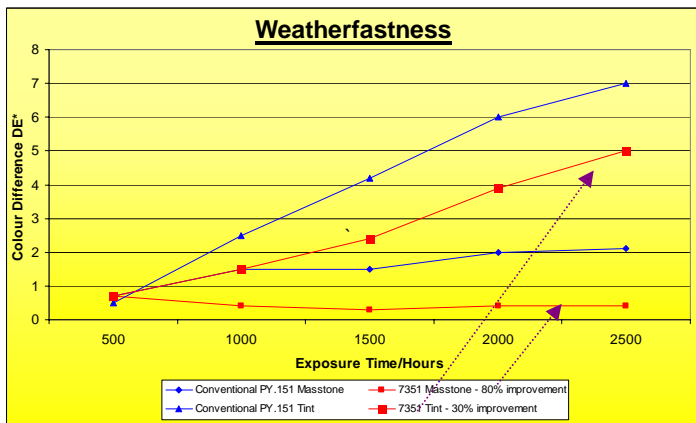

Key: P = Poor, F = Fair, G = Good, VG = Very Good, E = Excellent

Recommendations: 1 = Frequently Used, 2 = Limited Use, 3 = Not normally used. \* Weatherometer data

APPLICATIONS	
Automotive OEM	1
Automotive Finish & Fleet	1
Agricultural & Construction Equipment	1
Oil Gas & Marine	1
Building Products	1
Architectural Latex	1

PRODUCT CHARACTERISTICS	
Shade	Green Shade PY.151
Weatherfastness	
• Masstone	E
• Tint	E
Heat Stability: 5% pigmentation in Acrylic Melamine (min@°C)	E 30@120 30@200
Resistance Properties	
• Acid Resistance	VG
• Alkali Resistance	P
• Soap	F
• Organic Solvents	VG-E

## Performance Characteristics: Colour & Performance in Coatings

The information in this brochure is based on extensive testing and application experience and is believed to be a reliable indication of the results that may be expected. However, the data does not constitute a specification for the products, and is offered only as a guide to performance without guarantee or warranty of any kind. Because of the difficulties of modern colour reproduction, the shades may vary slightly from the final colour application. Since many variables have a strong influence on pigment performance, the users are encouraged to test each product in their own laboratory prior to use.
